DD2794 Form Change Overview

- **The DD2794, Cost & Software Data Reporting Plan is an effort between the Cost Assessment and Program Evaluation (CAPE), the Service Cost Centers, and the individual Program Management Offices to ensure the reporting requirements and structures are properly defined for cost, software, and technical data reporting. This session will review the DD2794 recommended changes. These changes are intended to more accurately capture the requirements for the new cost data collection initiatives.**

DD2794 Background

- **Why the changes from the current DD2794?**
  - Given the new cost data collection initiatives the CRSB (Cost Resource Standards Board) reviewed the current DD2794 and made recommended changes in order to more accurately capture these new initiatives as well as ensure the cost data requirements were clearly defined with little to no ambiguity

  - **Main Goals of the DD2794 Updates**:
    - Accurately represent new cost data collection initiatives
    - Remove ambiguity from cost requirements
    - Formalize cost and technical data reporting requirements
